# Assembly drawing:

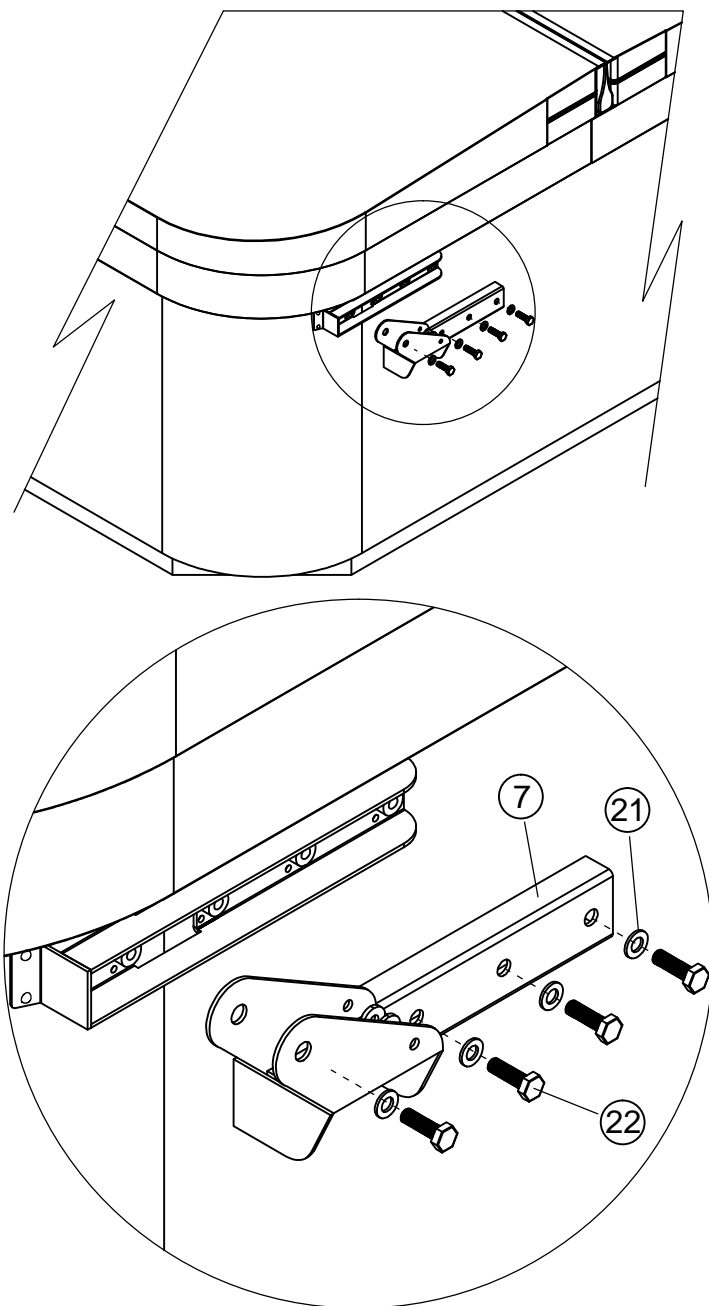

## Installation steps One: Arrange the bottom position and lock screws

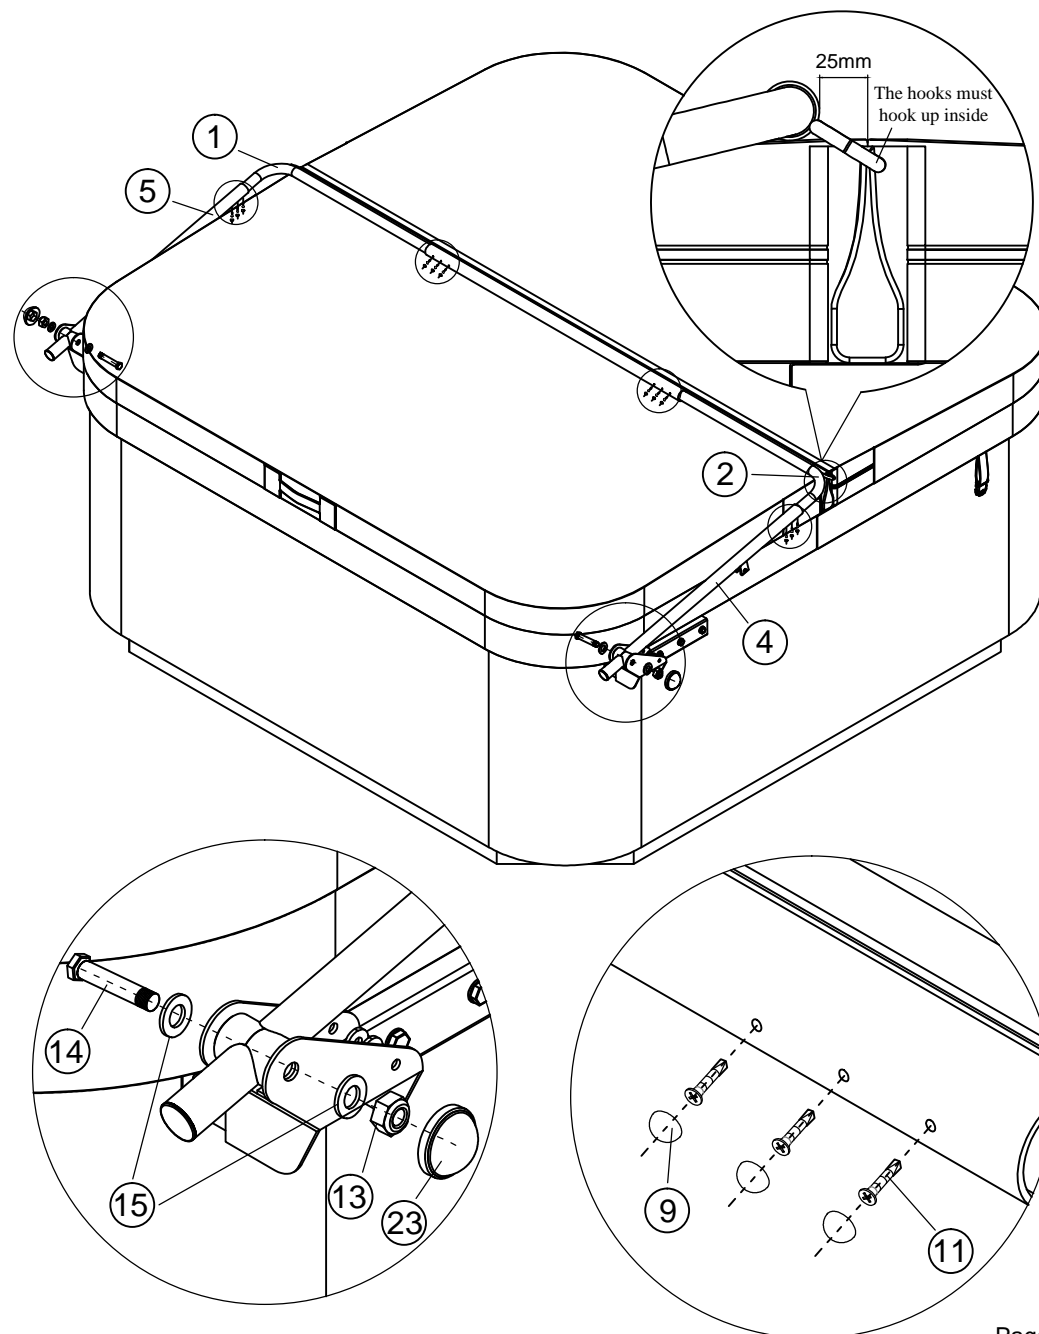

A distinction placed L&R

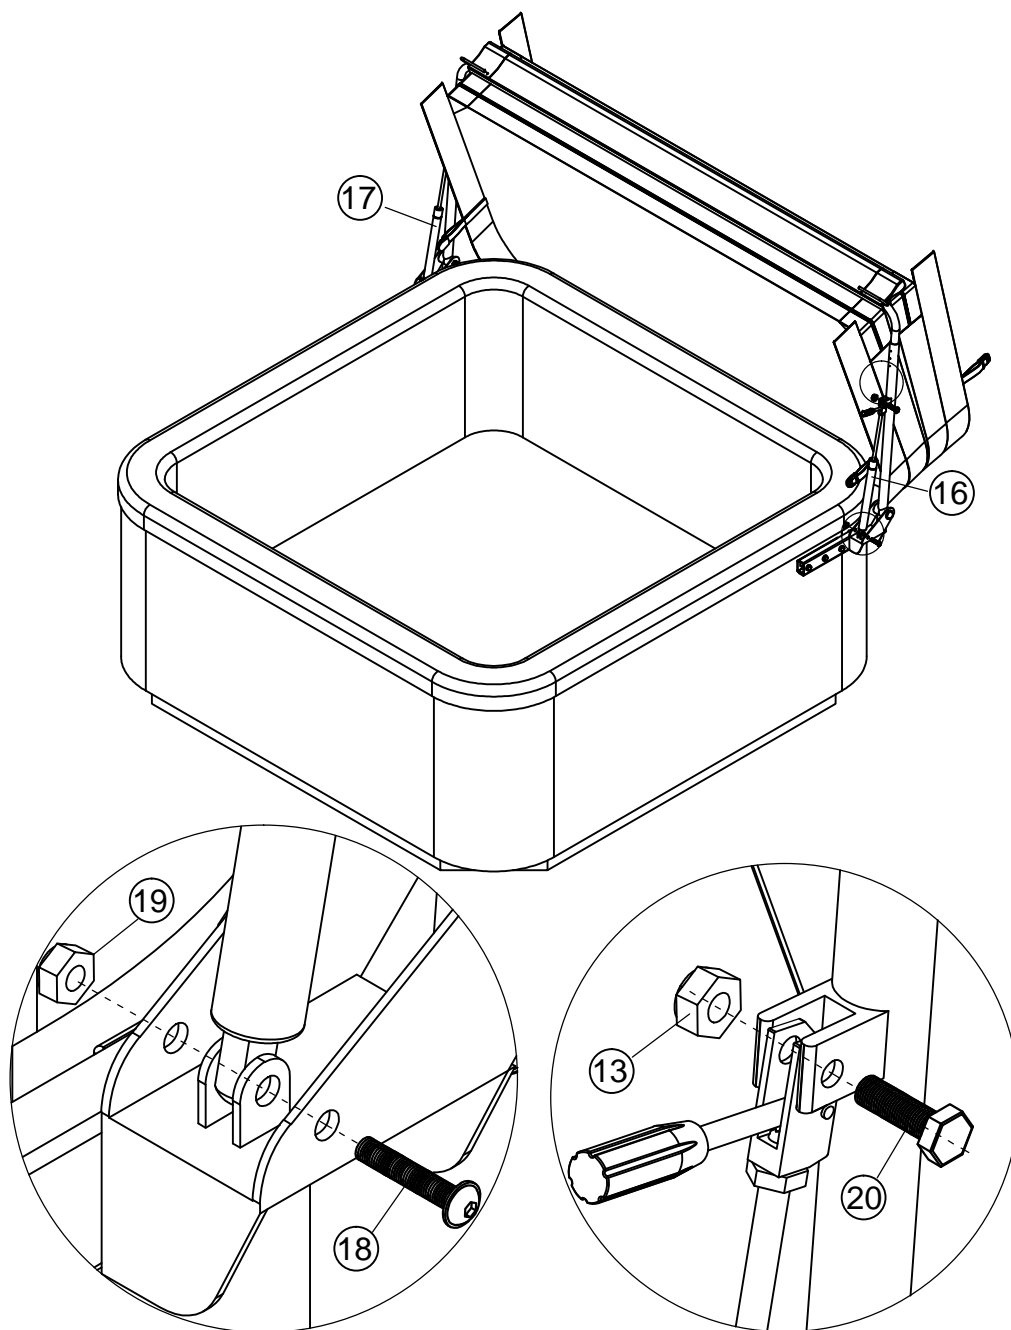

Installation steps two: install the two sides lifter separately

Installation Steps three: install the round tube, and lock with screws

Installation steps four: install the gas rod  
attention to distinguish the place of L & R

Operation method: this cover lifter with  
Self-locking positioning function. Each time to  
operating the spa cover open or closed, must  
press the operating lever counterclockwise,  
otherwise can't open or closed the spa cover.  
(operate as steps 1-2). When the operator  
releases the operating lever, the cover will  
position at the angle at which the current lock  
is opened.

Notice : It is forbidden to forcibly open or close  
the SPA cover when the operating lever is not  
depressed
